

Hello,
I would like to apply to permanently close a reserved road that goes through my farm (Lot 3 Lovers Lane, Morangup)
Polygon Number
11714355
Land Usage
Road Isolation (Type 3 P)

Few reasons

- Already existing road for local residents (Morangup Road and Jingling brook road);
- Lovers Lane as preferred access road to West Toodyay / Cobblers Pool etc;
- Reserved road described at 11714355 goes through already existing sheep yards and almost touching existing shed;
- Reserved road described at 11714355 goes through a very extreme terrain, please refer to topography map attached, some terrain is really rocky and steep, some very boggy in winter, gets water logged, I don't think that would be suitable location for a cost effective establishment road;
- Additional cost for me to work on fencing if ever decided to build unless closed upon this request.

Best Regards
