1. Volunteer Bush Fire Brigade – Bush Fire Operating Procedures (with Proposed Changes)

PURPOSE OF THE REPORT

For the Shire of Toodyay Bush Fire Advisory Committee Membership to consider proposed amendments to the Shire of Toodyay Bush Fire Operating Procedures and to make advice to Council with respect to the proposed changes.

BACKGROUND

The Volunteer Bush Fire Brigade Bush Fire Operating Procedures was adopted by Council as Council's interim Policy on 24 June 2014 (155/06/14) with a number of amendments considered by BFAC and ultimately endorsed by Council since initial adoption.

Progression of a Local Law in regard to Bush Fire Brigades was put on hold following the State's review of associated legislation, namely the *Bush Fires Act 1954*. However, progress towards a new act or acts has been slower than expected, and as such the Bush Fire Operating Procedures document still represents the current reference in relation to operation of the Shire's Bush Fire Brigades.

A number of proposed alterations have been identified via both BFAC and the CESM (author) which are summarised below under applicable sub-headings:

Use of Drones

At the August 2020 BFAC Meeting, a presentation regarding the use of drones for bush fire operations was presented by Fire Control Officer John Hansen with the intent of operating procedures being developed to support such operations. A resulting action item to consider insurance coverage resulted.

The Shire has confirmed via its insurer that use of drones in the proposed manner is covered by existing insurance arrangements and as such the officer has progressed the use of drones to a proposed Standard Operating Procedure (SOP) for consideration of BFAC.

The proposed SOP (SOP.24 – Use of Drones During Bushfire Operations) can be found on pages 89-92 of the attached Shire of Toodyay Bush Fire Operating Procedures document.

The SOP has been created around high-level objectives/considerations which include:

- Incident Controller has ultimate say in the approval for use of drone.
- Ensuring uninterrupted communications.
- Compliance with CASA requirements.
- Aircraft Safety.

- Endorsement of Operators.
- Record Keeping.

In presenting this proposed SOP the officer is requesting BFAC members consider this content, and the Officer's recommendation to recommend its adoption to council.

New Membership Requests – Advice to Existing Membership

The officer, following phone conversations with each of the five bush fire brigade captains is proposing changes to the new membership process (Item 2.1, Section 1) of the Shire of Toodyay Bush Fire Operating Procedures document.

This proposal can be found in full on Page 4 of the attached Shire of Toodyay Bush Fire Operating Procedures document.

The high-level intent of this change is to ensure that existing members are consulted and therefore aware of and have a right to express concerns with respect potential new membership to the brigade. These changes aim to:

1. Reduce the risk of the captain unknowingly introducing a member who may present a risk to the brigade. This could be due to prior existing direct or indirect personal conflict between the prospective member and existing member(s), or existing members having knowledge of undesirable character which may need to be considered by Captain (or Shire).
2. Protect the Captain from subsequent internal concern or push back relating to the endorsement of a new member without consultation.

The proposed changes have been created around the following high-level objectives/considerations:

- Captain to notify existing membership of proposed new member and invite comment.
- A negative response from an existing member will require a confidential advisory vote at a general, special meeting of the brigade.
- The Captain will consider the outcome of the advisory vote any discussion but will retain the ability to endorse the application.
- Documentation relating to the notification, subsequent responses and votes to be provided to the Shire (regardless of captain endorsement of application or not).

In proposing this amendment, the CESM acknowledges that levels of informal consultation is undertaken at brigade level in many cases of new membership requests.

Training Course Name Updates

Due to DFES training course changes the following references of specific training courses have been updated throughout the attached Shire of Toodyay Bush Fire Operating Procedures document.

Former Reference	Proposed Reference
Introduction to Firefighting	Bush Fire Safety Awareness
Bush Fire Firefighting	Fire Fighting Skills
Advanced Bush Fire Firefighting	Advanced Bush Fire Firefighting 2020
Crew Leader	Crew Leader 2020

It is important to note this does not require any member with former references competencies to attend the new courses. However, some new modules of the above new courses are available to members for upskilling. Members will be encouraged to attend such sessions.

Miscellaneous Amendments

Minor wording changes to Items 2.2.2, Section 1 (Page 5) with respect to minimum training standards for firefighters have been proposed to clarify, but not otherwise change the intent or requirement.

A number of formatting changes have been applied relating to correction of indenting and capitalisation of some headings for consistency.

COMMENTS AND DETAILS

Relevant information is provided in the Background section of this report, with actual proposed changes provided in the attachment (as Mark-up) for consideration of BAFC.

IMPLICATIONS TO CONSIDER

Consultative:

A level of existing BFAC consultation and limited FCO consultation has occurred during the development of the proposed SOP. Captain discussion has taken place with respect to the proposed changes to new membership process.

Strategic:

Council's Strategic Community Plan is its strategic vision for its local community. A key point is Governance which is the way the Shire leads and operates.

A Council that engages with the community and provides good governance on behalf of the community.

5. REPORTS FROM SHIRE OFFICERS

5.1 Report(s) from CESM

- Second Fire Support Vehicle soon to come online, currently doing some internal duties with Ranger Services.
- Julimar Fire Station tender to be released 04/11/2020.
- Criminal History Check process for new membership applications is now implemented, reminder for captains ensure applicants are aware of this when signing up.
- Plan to work with brigades on reporting procedures/personnel following updated computer hardware.
- All BFB appliances now have standardised radio hardware being 2 x VHF Bands and 1 x UHF band.
- MAF works are continuing, current focus is slashing of grass or clean-up of grass and jam reserves.

- DFES has awarded a contract for mitigation in the UCL/UMP in the river. Concern raised by C. Stewart re: the late timing of these works.

5.2 Report(s) from CEO

- Discussions have commenced with DFES regarding next CESM MOU.
- Seeking clarifications around roles and responsibilities of CESM due to increasing workload.
- DFES developing new CESM business plan document, however Shire of Toodyay not consulted despite being in an existing partnership.
- Shire looking at potential internal resourcing to better support CESM.

6. UPDATES AND REPORTS

6.1 C. Stewart (CBFCO)

- Thanked the Shire/Council for endorsement of the BFAC recommendation for FCOs.
- Two good stations now opened.
- Good stability in brigades.
- Provided update on recent meeting at Bindoon Army Training Facility pre-season meeting.
- Good cooperation with Defence and contractors, best setup with regards to fire ever witnessed.
- New procedures put in place now limit activity on the range in line with the conditions and risk.
- New maps of the range coming. First draft of these maps show huge improvement over previous map.
- Major works on range over summer will close some internal roads (including the main road) – reiterated the need for crews to stop at the front gate to find out details of on range activities including any detours.

6.2 I. MacGregor (FRS)

- Thanked BFBs for their support at Saturday fire in Riverhills Estate.
- Looking forward to new BA sinks/washroom upgrade organised by Shire.

6.3 J. Hansen (BRPC)

- Outline his change of duties in relation to MAF, focus is now on BRMP for other Shires.
- Trialled Drone at Saturday's Riverhills Estate fire which proved useful for investigations.

6.4 M. McKeown (Toodyay Central BFB)

- Have a few more 12.2 Drivers mainly via Julimar BFB. Looking to give them an induction shortly.
- Happy with new appliance radio setup.
- Busy start to the season with 7 callouts.
- Question asked about delivery of Defibs. R. Koch (response) soon to be rolled out, awaiting finalisation of internet setups at Coondle and Morangup as units have Wi-Fi monitoring.

7. CONFIRMATION OF NEXT MEETING

The next meeting of the Bush Fire Advisory Committee is scheduled to be held on 2 February 2021 commencing at 6.00pm.

8. CLOSURE OF MEETING

The Chairperson declared the meeting closed at 6.50pm.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

INTRODUCTION

These Standard Operating Procedures (SOPs) are set of procedures, standards and guidelines approved by Council for the safe and efficient operation of Brigades and personnel at emergency incidents.

These Procedures for Bush Fire Brigades and Operations are a living document that may, from time to time, require updating and additions.

Input from Brigade members is welcome.

If a Brigade member feels that an SOP is unworkable, not practical or needs inclusion they should raise the matter at their local Brigade Meeting.

If the meeting agrees then it should be raised by the Brigade representative on the Bush Fire Advisory Committee.

The Bush Fire Advisory Committee will discuss the matter and make a recommendation to Council that the SOP be added or amended.

SOP.1 DRIVING GUIDELINES FOR BUSH FIRE BRIGADES

Procedure No.	SOP.1
Procedure Subject:	Driving Guidelines for Bush Fire Brigades
Adoption Date:	
Last Reviewed:	

INTRODUCTION

Driving emergency vehicles under emergency conditions brings with it an added responsibility to the Officer in Charge and the driver of the vehicle. The safety of the community at large should be balanced with the urgency of the call.

Drivers should, in the first instance ensure the safety of the crew and the public when responding to a call, and secondly endeavour to arrive at the incident as soon as practicable.

Drivers should follow the principles outlined in this Standard Operational Procedure. No risk is justified if it is likely to prejudice the safe arrival of the appliance and crews at an incident or the safety of others within the community.

Driving an emergency vehicle under emergency conditions comes with a set of responsibilities that may have dire consequences if they are not performed rationally, competently, professionally and with consideration for others (road users, pedestrians etc.).

PROCEDURE

1. DRIVING CONDITIONS FOR BUSH FIRE BRIGADE PERSONNEL

All drivers must hold a valid and current class of driving license for the vehicle type that is being driven.

All drivers must have the approval of the brigade Captain to drive the vehicle and where possible complete the DFES approved course for the appropriate class of vehicle.

Driver holding "P" Plates may drive appliances as part of driver training; ~~however~~however, are not to drive to or at emergency/incidents.

Drivers are not to operate fire appliances for longer than a ~~12-hour~~12-hour shift.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

2. FIRE CALL CONDITIONS CODE I

Appliances responding with haste where Life/Property is in danger.

Emergency Warning Beacons, SIREN and headlights are to be on at all times when travelling to an Operational Emergency incident or at the discretion of the OIC or Crew Leader.

Rail crossing signals and boom gates to be obeyed at ALL times.

Drivers and Officers should also refer to DFES issued SOP"[ss](#).

SOP 36 Road Traffic Code

SOP 37 Driving Emergency Vehicles

SOP 40 Driver Responsibilities

3. NORMAL ROAD CONDITIONS CODE 2

When returning to fire station, attending training or exercises and general operations:

No emergency warning lights and sirens are to be used.

ALL road rules must be obeyed at ALL [timestimes](#).

4. DRIVING REQUIREMENTS FOR OFFROAD USE

Vehicle is to operate in low range 4X4 at all times when driving off road on the fire ground.

Hubs on vehicles with freewheeling hubs are to be locked in at all times.

Speed is to be minimised to ensure safety of occupants.

5. GENERAL

- Fire Fighters must at all times, drive with due care and attention and continue to show consideration to other road users.
- It is essential that the privileges granted by law are not abused.
- Crew Care and Safety must be ensured at all times when driving.
- Warning Lights are to be in operation at all times when brigade personnel are working off the appliance as other vehicle movement may prove a hazard.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

- The MAXIMUM speed limit for the vehicle class is to be observed at all times on roadways.
- Brigade units are not to be used other than for call outs or normal brigade activities as defined the Bush Fires Act so as to receive insurance ~~cover~~ cover.

6. TURN OUT PROCEDURE

- 1 All firefighting appliances are to respond as Emergency Vehicles (Code 1) unless instructed otherwise,
- 2 The initial response to fires will be as Emergency Vehicles (**Code 1**). Subsequent support vehicles are to travel under **Code 2 UNLESS OTHERWISE DETERMINED BY THE INCIDENT CONTROLLER.**
- 3 Station/Group radio operators may downgrade/upgrade responding vehicles on advice from the Incident Controller.
- 4 For response to fire/incidents or alarms where there is a **HIGH LIFE RISK FACTOR** – e.g.e.g. Schools, Hospitals, Nursing Homes, incidents involving aircraft or buses, ALL vehicles will respond Code 1 unless otherwise determined by the Incident Controller.

REMEMBER that to drive under Code 1 condition when it is not expedient or safe to do so is a breach of the Road Traffic Act and could result in driver prosecution.

Procedure Subject:	Smoke affected roads
Adoption Date:	
Last Reviewed:	

PROCEDURE

Fire burning on or near road verges, with smoke obscuring vision, is potentially the most dangerous situation volunteers can find themselves in. More fire fighters have been killed or injured in this situation than any other firefighting activity.

Treat traffic like electricity! Do not attempt to work in smoke reduced visibility until you are sure the flow has been cut off.

Extreme caution must be taken and the following procedures followed at all times:

The Incident Controller will request police to provide traffic control at the earliest possible moment.

Fire fighters working from or on a Gazetted roadway that is part of a fire ground. (Roads will be closed under State Emergency Management Policy No. 4.8)

1. For the safety of fire fighters any roadway where fire fighters are working must be closed if there is a risk of injury or accident
2. Where possible fire fighters should look for alternative work environments other than the roadway.

Gazetted Roads under the Care & Control of the Local Government

1. If the Road is a Local road under the care of the Shire of Toodyay the Shire the Incident Controller will close the road. The CESM or Ranger shall arrange for the road to be attended to by appropriate qualified staff.

If police assistance is unavailable, and a detour is not possible, then the Road or Roads are to be closed when fire operations are be undertaken from any gazetted roadway.

Gazetted Roads under the Care & Control of Main Roads (MRWA).

1. If the Road is a major Highway or arterial road under the care of Main Roads then Main Roads shall be contacted via the police to have the Road closed and signed accordingly.

The Incident Controller shall request MRWA to formulate and implement a Traffic Plan. The request shall be made via the DFES communication Centre or the [Police/Police](#).

If police assistance is unavailable, and a detour is not possible, then the Road or Roads are to be closed when fire operations are to be undertaken from any gazetted roadway.

If a motorist "IGNORES" instructions from a duly authorised person then the offender's registration number and the time should be noted and reported to the police at the first opportunity. Action will be taken. The Incident Controller must be notified **by radio** immediately when a motorist disobeys any direction and proceeds.

Fire appliances **must** have all emergency lights on and headlights dipped when working in a visibility reduced hazard.

INTRODUCTION

It is necessary to have an efficient turnout of brigades within a Local Authority. This is to be supported by the Region Operations Centre co-ordinating the turnout between Shires, which in turn must be supported by the State Operations Centre, co-ordinating mutual aid between Regions.

To ensure an orderly and effective turnout occurs the following procedures are to apply.

SHIRE TURNOUT RESPONSIBILITIES

Chief Bush Fire Control Officer, Deputy Chief Bush Fire Control Officer or the Incident Controller are responsible for the turnout of all firefighting resources stationed within the [ShireShire](#).

The Incident Controller is responsible that adequate relief has been arranged. The CBFCO and DCBFCO will ensure that some resources maybe held in reserve for further outbreaks of fire or that mutual aid has been arranged to cover all eventualities.

Call-out of these resources will be in accordance with the Local Authority and Brigade Response Plans and supported by the Local Emergency Management Plan.

DISTRICT OPERATION CENTRE RESPONSIBILITIES

If DFES requires assistance in addition to the Shires resources from adjoining Shires within their Region, such assistance will be activated through the DFES Regional Duty Officer.

When making a request DFES will supply the following information:

- 1 Number and type of fire appliances and minimum crewing
- 2 The task the appliance are to ~~perform~~[perform](#).
- 3 The duration the resources will be required for
- 4 Where and to who will the resources report to?
- 5 When are the resources required at the forward control?
- 6 Welfare and Relief arrangements

Region Duty Officer will then:

- 1 Contact the appropriate CBFCO requesting the above be provided;
- 2 Once the request has been actioned, confirm back the arrangements made; AND
- 3 Advise the State Duty Officer of action taken.

BRIGADES TO PROVIDE OWN CREW LEADERS

When a request is made to the Shire of Toodyay to supply resources (Task Forces/Strike Teams) to another Shire then the following should apply.

- 1 The Chief Bush Fire Control Officer with the Deputy CBFCO's / CESM will decide on the number of resources that will be sent out of the Shire at any given time.
- 2 A Delegated Brigade Officer should accompany these [appliances/appliances](#).
- 3 Toodyay VFRS will be alerted that Shire resources will be leaving the Shire. And Fire Control Officers will be alerted via SMS that resources are leaving the Shire.
- 4 The Shire supplying the mutual aid is responsible for providing personnel to meet the request, and they will be responsible for getting relief crews to and from the fire while the mutual aid is being supplied in accordance with Council Policies and Procedures.
- 5 Crews responding to a mutual aid request should ensure they have eaten before being dispatched to the fire. Subsequent welfare will be the responsibility of the Incident Controller.

SOP.17 VEHICLE FIRES OUTSIDE OF GAZETTED TOWNSITE

Procedure No.	SOP.17
Procedure Subject:	Vehicle Fires Outside of Gazetted Townsite
Adoption Date:	
Last Reviewed:	

INTRODUCTION

Bush Fire Brigades are the primary turnout to vehicle fires that occur outside of the gazetted townsite of Toodyay. Toodyay Bushfire Brigades are not trained nor do they have breathing apparatus to use whilst fighting fires in toxic smoke. Given the fact that cars give off multiple types of toxic fumes it is not safe for the Toodyay Bush Fire Brigades to conduct offensive firefighting techniques on vehicle fires of any type.

PROCEDURE

Once the initial call has been received and the brigade has turned out to the vehicle fire incident, the crew leader or incident controller must advise DFES communications that the Toodyay Volunteer Fire and Rescue is required to attend, due to the nature of the incident being HAZMAT. AlsoAlso, the crew leader may request that Police attend for traffic control if required.

Once the brigade appliances arrive the units should be parked up wind or out of the toxic smoke and in the fend-off position across the road to stop passing traffic.

Beacons and head lights shall be on to warn approaching motorist.

Safety of firefighters working on the road shall be the number one priority.

The crew leader or incident controller shall conduct a scene size-up to determine if any persons may be trapped or located close to the vehicle and perform a rescue if safe to do so. The information on the incident shall be relayed to DFES communications.

Firefighting shall only be in the form of a defensive technique, meaning to protect any other assets or preventing the fire spreading to the road verge or surrounding bush or grass.

Fire fighters shall stop traffic from passing and keep public spectators away from the incident.

The BFB crew leader or incident controller may hand over control of the vehicle fire incident to the Toodyay Volunteer Fire and Rescue officer in charge.

INTRODUCTION

Bush Fire Brigades are the primary turnout for structure fires that occur outside of the gazetted townsite of Toodyay. Toodyay Bushfire Brigades are not trained nor do they have breathing apparatus to use whilst fighting fires in toxic smoke.

PROCEDURE

Once the initial call has been received and the brigade has turned out to the structure fire incident, the crew leader or incident controller must advise DFES communications that the Toodyay Volunteer Fire and Rescue is required to attend due to the nature of the incident. ~~Also~~Also, the crew leader may request that Police, ambulance and Western Power attend.

The crew leader or incident controller shall conduct a scene size-up to determine if any persons may be trapped or located close to the structure fire and perform a rescue if safe to do so. The information on the incident shall be relayed to DFES communications. The BFB crew leader or incident controller shall look for any potential hazards to the firefighters and the public.

Before any type of firefighting is conducted, power shall be isolated at the buildings power box by removing all fuses and shutting down the mains switch, the firefighter conducting the size up must also note if solar power modules are located anywhere on this structure. LPG cylinders shall also be isolated at the cylinder valves.

Firefighting activities for the Bush Fire Brigades are limited to defensive techniques only and brigades shall not enter the structure at any time. Defensive firefighting is to protect surrounding assets and to prevent the fire spreading.

The BFB crew leader or incident controller shall conduct a thorough SITREP hand over and hand control of the structure fire incident to the Toodyay Volunteer Fire and Rescue officer in charge.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

NOTES

Depending on the location of the structure fire incident, it is advised that extra water resourcing may be required and additional bulk water tankers may need to be sourced.

Requesting that the Toodyay Volunteer Ambulance be turned out before the scenario has been assessed is advised due to the fact that they too are volunteers and it may take extra time for the ambulance to arrive, so the sooner they get the message the sooner they may arrive and if they are not required then the Volunteer Ambulance can be stood down.

BFB appliances should not obstruct access to the structure for the arriving Volunteer Fire and Rescue trucks, as they will need to park closer to the building than what the BFB does.

Procedure No.	SOP.19
Procedure Subject:	Harvest and Vehicle Movement Ban
Adoption Date:	
Last Reviewed:	

INTRODUCTION

The Shire of Toodyay has the right to impose the ban on activities such as harvesting crops, vehicle movement and hot works. The only exception to the ban is watering and feeding of livestock. This procedure is to define the way the ban is measured and implemented.

PROCEDURE

The Chief Bushfire Control Officer for the Shire of Toodyay is also the delegated Fire Weather Officer for the Shire of Toodyay; the CBFCO in this role must liaise with a minimum of 2 other Bushfire Control Officers located throughout Shire of Toodyay to conduct weather readings using the appropriate tools such as Kestrels weather metres. The information and readings that has been gathered by these FCO's must be recorded and relayed to the CBFCO. The CBFCO will then make the decision to impose a ban if required.

The following information shall give reason for the CBFCO of the Shire of Toodyay to impose a harvest and vehicle movement ban;

- **The weather readings taken have indicated a Grass Fire Danger Index (GFDI) of 32**
- **A Total Fire Ban that has been implemented by the Department of Fire and Emergency Services**
- **Lack of firefighting resources located in the Shire of Toodyay**
- **Bushfire incidents currently ongoing in the Shire of Toodyay**
- **Once the harvest, vehicle movement and hots works ban has been imposed the delegated FCO's and CBFCO must review the conditions hourly until the ban is deemed safe for the ban to be lifted.**

The CBFCO may request that the delegated FCO's take readings every day during the Prohibited Fire Season.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

Once the decision has been made to impose the harvest, vehicle and hot works ban then the following notifications must be made;

- Send SMS notification via the Shire message [serviceservice](#).
- Email or phone the ABC harvest ban announcement service
- Send notification to bordering [ShiresShires](#).

SOP.20 BACK BURNING DURING BUSHFIRE INCIDENTS

Procedure No.	SOP.20
Procedure Subject:	Back burning During Bushfire Incidents
Adoption Date:	
Last Reviewed:	

INTRODUCTION

In the right circumstances back burning can be an effective technique to stop the spread of bushfires or protect assets during emergency situations.

Back burning must be done under correct conditions and carried out by experienced personnel on the fire ground otherwise back burning may create dangerous fire behaviour or increase the size of the current fire.

Some reasons for conducting back burns;

- Asset protection
- Inaccessible country to fight the fire in traditional ~~means~~means.
- UXO known ~~areas~~areas.
- Squaring up fire boundaries
- Burning out to firebreaks

PROCEDURE

- All techniques of fire suppression must be explored to suppress the fire before the choice is made to conduct a back ~~burn~~burn.
- A risk assessment shall be considered prior to the all-clear given for any back burn to be ~~conducted~~conducted.
- Weather readings may be taken prior to any back burn been ~~conducted~~conducted.
- **ONLY** the incident controller can give permission to carry out this ~~task~~task.
- All personnel shall record the proceedings of the back burn in the personal fire ~~diary~~diary.

SOP.21 CRIMINAL HISTORY CHECKS (CHC)

Procedure No.	SOP.21
Procedure Subject:	Criminal History Checks
Adoption Date:	
Last Reviewed:	

INTRODUCTION

Volunteer Bush Fire Bridge members regularly engage with the community through the services they provide and may have unsupervised access to private property. They are trusted with the care and use of valuable community assets and work with the public, often during times when individuals are most vulnerable. Additionally, Shire of Toodyay Volunteer Bush Fire Bridge members are entitled to expect that their colleagues are of good character and do not pose a risk to their safety.

CHC are a contemporary workplace practice which improve the Shire of Toodyay’s commitment to the wellbeing and safety of its personnel and the community. This SOP outlines the process for undertaking CHC for existing and prospective Shire of Toodyay Volunteer Bush Fire Bridge members.

The SOP includes a number of mandatory requirements to ensure CHC are properly conducted and applied. An adverse criminal record will not necessarily preclude the applicant from becoming Bush Fire Brigade member with the Shire of Toodyay.

PROCEDURE

1. APPLICATION (New Member)

- 1.1 All prospective Shire of Toodyay Volunteer Bush Fire Brigade members must complete the nominated service provider application/consent. **Alternative:** An applicant may provide an existing CHC providing it is not more than 3 months old. The applicant must provide a statutory declaration to certify the CHC is true and correct and they have not been charged with or convicted of an offence (excluding minor traffic offences such as speeding) since the CHC was issued.
- 1.2 Where the applicant is under 18 years of age. A parent or guardian must consent to a CHC for a person under 18 years as part of the application.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

- 1.3 Where an applicant is from overseas and in the country on a visa, a certified copy of their visa must be provided to support their application.
- 1.4 The Verifying Officer (Shire of Toodyay Staff Member) will complete any relevant portion of the application in relation to the organisation (Shire of Toodyay). This may include the sighting and verification of documents.

2. APPLICATION (Existing Member)

- 2.1 The CEO may request existing Shire of Toodyay Volunteer Bushfire Brigade member undertake a CHC at any time including (but not limited to):
 - a. when a member is promoted or transfers to a higher risk role in the service
or
 - b. where a member advises the Shire of Toodyay of the existence of a charge or conviction under 5.1 of this SOP.
or
 - c. where the Shire of Toodyay may have reason to suspect that the member has not disclosed a charge or conviction as per their obligation under 5.1 of this SOP.
- 2.2 The member must comply with the CEO's request to provide a CHC within 28 days, by completing the new member application process as per Item 1 of this SOP. (For the purposes of interpreting terminology of this SOP, the member will be deemed to be an 'applicant' or 'prospective' in such a circumstance).

3. RESULTS (New & Existing Members)

- 3.1 The Verifying Officer will receive notification of the CHC result from the Service provider being:
 - a. No disclosable history
or
 - b. Disclosable history (with relevant details).
- 3.2 Based on the CHC result the Verifying Officer will either:
 - a. Recommend the applicant be approved and registered as a member (where there was no disclosable history).
or
 - b. Make a recommendation to the CEO that the applicant be approved and registered as a member where the disclosable history is deemed not significant or not relevant.
or
 - c. Inform the applicant in writing of the disclosable history in the ~~CHC, and~~ CHC and provide them with 28 days to respond and upon receipt of their response (or expiry of the response period) make a recommendation to the CEO that the applicant be/not be approved/registered as a member where the disclosable history

is deemed significant or relevant. In this process the Shire of Toodyay may seek permission of the applicant to discuss the application (and all relevant details) with the Captain of the Brigade and/or the Chief Bush Fire Control Officer.

- 3.3** Where the application is referred to the CEO, the CEO shall make the final determination and advise the application outcome to the applicant and Brigade Captain (or Chief Bush Fire Control Officer).

4. DISPUTES REGARDING THE ACCURACY OF A CHC

- 4.1** The Shire does not have a role to play in this process other than to rely on the information contained on the check. The matter of a disputed outcome is to be resolved between the applicant and the provider of the check.
- 4.2** No employment/engagement decision should be made until the dispute is resolved.
- 4.3** The onus is on the applicant to resolve this dispute and provide the evidence to correct any disputed information.

5. DUTY OF DISCLOSURE

- 5.1** A Volunteer Bushfire Brigade member charged with and/or convicted of an offence must report the charge/conviction in writing to the attention of the Shire of Toodyay CEO within 14 days of being charged or convicted of an offence. The correspondence should be marked 'CONFIDENTIAL'. The CEO, in consultation with the brigade captain and relevant shire staff will determine the next course of action in line with this SOP.

6. CONFIDENTIALITY

- 6.1** Strict confidentiality will be maintained regarding any CHC and related documentation. Information on an individual's CHC must only distributed be as required for decision-making purposes.

7. COSTS

- 7.1** The Shire of Toodyay will cover the costs of CHCs, except in the instance of provision of existing CHC, which will be at the discretion of the CEO, as it may be reasonably assumed that the CHC was originally obtained for other purposes.

8. CONVICTION RISK ASSESSMENT GUIDE

The following factors will be considered in the assessment of an individual CHC results:

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

- The seriousness of the conviction or offence and its relevance to the role in question
- Whether in relation to the offence there was a finding of guilt but without conviction, which indicates a less serious view of the offence by the ~~courts~~courts.
- The age of the applicant when the offences ~~eeccurred~~occurred.
- The length of time since the offence ~~eeccurred~~occurred.
- Whether the applicant has a pattern of offences
- The circumstances in which the offence took place, for example if it was an offence that took place in a work, domestic or personal ~~eecontext~~context.
- Whether the applicant's circumstances have changed since the offence was committed (for example, past drug use)
- Whether the offence has been decriminalised by Parliament or it was an offence overseas but not in Australia
- The attitude of the applicant to their previous offending behaviour
- References from people who know about the offending history.

The following table provides guidance in assessment of offences. NB: This table is a guide only and does not cover all possible offences and scenarios.

Risk Category	Offences	Advisory Note
Extreme	Arson Murder- Attempted Murder Sexual Assault Offences Serious Assault (Grievous Bodily Harm +) Deprivation of Liberty Robbery Offences Burglary (Dwelling) Drug Offences (Sell/Supply) Any offences against children	Any of these offences would likely prohibit service.
High	Manslaughter Driving Causing Death Assault Offences Indecent Assault Offences Assault Police/Public Officer Stealing as a Servant Fraud Offences Indecent-Obscene acts	Any of these offences may prohibit service.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

Medium	Threatening Behaviour Steal Motor Vehicle Theft-Receiving/Illegal Use Burglary (Non-Dwelling) Breach of a Restraint Order Graffiti Drug Offences (Possess) Property Damage	Any of these offences may prohibit service.
Low	Antisocial Offences (Disorderly Conduct) Traffic Offences (Drink Driving etc.)	Simple offences - multiple offences may prohibit service.

NOTES

This SOP does not contain details of individual actions taken to fulfil the CHC application process as this is dependent on the service provider used/any changes to the services provider's own process. The Shire will provide a relevant instruction sheet to assist members in provision of this information.

SOP.22 STOWAGE OF NON-STANDARD ITEMS ON APPLIANCES

Formatted: All caps

Procedure No.	SOP.22
Procedure Subject:	Stowage of Non-Standard Items on Appliances
Adoption Date:	
Last Reviewed:	

INTRODUCTION

Bush Fire Brigade appliances are supplied by DFES under the Local Government Grants Scheme and funded by the Emergency Services Levy.

Each appliance type has an associated standard stowage list for equipment. For the purpose of interpreting this SOP, any ~~a~~ equipment placed on an appliance additional to the DEFS list for that type of appliance shall be deemed as 'non-standard'.

From time to time, a brigade or the local government may wish to add further equipment beyond that of the standard stowage. This SOP outlines consideration and circumstances where due-diligence or approval must be sought prior to introduction of additional equipment.

Please Note: This SOP is not intended to cover incidental items such as (but not limited to) paperwork/stationary or spare PPE.

PROCEDURE

The following checklist must be completed prior to the stowage of additional equipment on an appliance.

Where the answer to any of the questions is Yes or the answer is unknown, the Brigade must consult with the Shire for guidance and permission to proceed. Approvals, if granted may have conditions attached.

Consideration	Y	N	Example
Appliance Weight Compliance: Will GMV and/or Axle ratings be exceeded post stowage of the proposed equipment? NB: Vehicle will require weighbridge weighing to determine this. 90kg per seat must be factored into the above calculations. If a weighing has not been recorded, answer 'N'.			Addition of a fully loaded vehicle fridge may cause appliance weight compliance issues.

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

<p>Appliance Modifications:</p> <p>Will the proposed equipment stowage be require modification or addition to locker facilities, electrical circuits or mounting/fastening arrangements?</p>		<p>Addition of a battery operatedbattery-operated equipment requiring charges (hard wired or additional outlets) i.e., Dash Camera</p>
<p>Effect on Existing Stowage, Function or Capability:</p> <p>Will any existing stowage (standard or non-standard) be moved or removed in order to accommodate the stowage of the proposed equipment or effect an existing function/capability of the appliance?</p>		<p>Windscreen mounted GPS navigation display interfering with heat shield curtains.</p>
<p>Safety - Training/Procedure:</p> <p>Does the proposed item of equipment have training requirements and/or additional procedures for its safe and effective operation?</p> <p>NB: This Should be based on compliance with OSH Act 1984.</p>		<p>Chainsaw would require trained operators.</p>
<p>Safety – Unexpected Movement:</p> <p>Is there a risk that the proposed equipment may move in such a way to which may harm an occupant of the appliance (i.e., during heavy braking)?</p>		<p>Poorly engineered fitment of a vehicle fridge.</p>
<p>Safety – Fuels & Energy Source</p> <p>Does the introduction of the proposed item of equipment introduce the need for new or increased fuel or battery storage?</p>		<p>Petrol powered small plant items (i.e., Blowervac or Chainsaw)</p>

Regardless of whether Shire approval is required or permission given the following principals shall apply:

Section Two – Standard Operating Procedures

For Bush Fire Brigades and Operations

Costs: All costs, including purchase of proposed equipment and associated accessories, servicing, replacement and training shall be borne by the brigade (unless otherwise agreed to in writing by the Shire).

Removal: The Shire may order the removal (or vary the terms) of non-standard stowage where it:

- a) disagrees with any aspect of the above assessment by the brigade or;
- b) identifies lack of upkeep of training, procedure or servicing of the item or its accessories or;
- c) identifies a need for more important item or;
- d) identifies any other breach of this or related SOP.

NOTES

Where there is any apprehension as to whether this SOP is intended to cover a proposed item of stowage, the brigade is advised to first check with the Shire.

INTRODUCTION

This SOP relates to use of chainsaws. It is intended to be read in conjunction with SOP.22 (Stowage of Non-Standard Items on Appliances) which covers additional aspects including, appliance weight/stowage compliance, training, administration, servicing and financial requirements.

PROCEDURE

1. On application to the Shire by a brigade, an appliance may be provided permission under SOP.22 (Stowage of Non-Standard Items on Appliances) to carry a ~~battery operated~~battery-operated chainsaw.
2. The operator must wear suitable PPE which does not compromise standard firefighting PPE. This will include;
 - a) Mesh face guard (attached to bushfire helmet)
 - b) Zip on Chaps (over bushfire trousers)
 - c) Goggles
 - d) Gloves
3. Only trained operators are permitted operate the saw:
 - a) to the scope to which they are trained and;
 - b) within the capability of the saw.

NB: For a member to be considered a ‘trained operator’ The brigade must supply the relevant certificate of training (as per the below table) to the Shire with the Captain’s endorsement. The Shire reserves the right to refuse or revoke recognition of the training.

Level of Training	Scope
FPICOT2239A – <i>Trim and cut felled trees</i>	Fallen Timber, Punning, standing timber to 100mm dia/4m height.
FPICOT2236 – <i>manual tree falling (basic)</i>	Sound standing timber to 500mm dia/20m height.

SOP.24 USE OF DRONES DURING BUSH FIRE OPERATIONS

Formatted: All caps

Procedure No.	SOP.24
Procedure Subject:	Use of Drones During Bush Fire Operations
Adoption Date:	
Last Reviewed:	

INTRODUCTION

Intelligence gathering can be vital in management of a bush fire incident. Technology such as drones can assist bush fire operations both in escalation stage (locating, identifying life/property at risk) and de-escalation (mop up, identification of hotspots or weakness near control line). Drone operations can also assist in mitigation activities.

Drones, as an aircraft require considered operation to ensure effectiveness and safety. This SOP outlines minimum standards for use of a drone during bush fire operations.

PROCEDURE

The following criteria must be considered and complied with when using drones during bushfire operations:

1. **Limitations** – This SOP only applies to incidents/operations where Shire of Toodyay is the controlling agency. This SOP does not cover use of drones at incidents controlled by other agencies (regardless of incident controller agency).
2. **Non-Incident Use** – Drones may be used in exercises, training, bush fire mitigation activities, provided:
 - a) The activity has a clearly defined management hierarchy, with role equivalent to an Incident Controller (e.g.e.g., Exercise Controller). Subsequent references to Incident Controller in this SOP may be substituted with the equivalent role/role title in such instances.
 - b) Both the activity and use of the drone asset has been explicitly approved by a Bush Fire Control Officer appointed by the Shire of Toodyay.
3. **Authorisation to use** – Drone operations may only commence, be conducted in line with and for the duration of expressed permission by Incident Controller.
4. **Delegation of Authority** – The Incident Controller may delegate this responsibility to the Deputy Incident Controller or the Operations Officer by explicit diarised

instruction. Subsequent delegation may only occur with explicit diarised permission of the Incident Controller. Where delegation has occurred, subsequent references to the Incident Controller in this SOP, may be substituted with delegated role title.

5. **Sectorisation** – Upon authorisation to commence drone operations, drone operations must be sectorised (as a functional sector) to be called ‘Sector Drone’, and a sector commander appointed (callsign ‘Sector Commander Drone’). The drone operator may fulfill the role of Sector Commander Drone.

6. **Communication Standards (Operator to Incident Controller)** – As minimum, ~~of~~ one of the following methods of communication must be always maintained:

- a) Person to person, visual line of site (preferred); or
- b) Via radio, tested prior to flight and during flight at ~~5~~ **5-minute** intervals or otherwise directed by the Incident Controller (~~t.e.i.e.~~, reduced time frequency during mop-up phase) and where operator’s radio selcall number has been provided and confirmed with the incident controller.
- c) Where an air operations channel has been assigned to the incident, this must be monitored by the operator.

7. **Cessation of Operations** – Operations should immediately end upon:

- a) Completion of task set/agreed by the Incident Controller; or
- b) Loss of communications with Incident Controller; or
- c) Operator becoming aware of other aircraft operating in the operational area; or
- d) Request of Incident Controller.

8. **Operator’s Location** – Except in the case of 6a), the operator’s location is to be reported to and confirmed by the Incident Controller prior to any operation. This may be via confirmed DFES Automated Vehicle Locator system or by Emergency Services Directory quoted publication name, map number and six figure grid reference.

9. **Identification of Drone** – Drone should have identifying red and blue flashing lights attached and operational during flight. Should this condition not be met it must be communicated to the Incident Controller.

10. **Authorisation of Operator** – The operator must:

- a) Be a current registered member of a Shire of Toodyay Bush Fire Brigade/Service; and
