

Prohibited Burning Period Begins

Here's what you
need to know >>

When does Prohibited Burning Period start?

1 November 2026

Inclusive.

Is burning allowed during this period?

No.

Burning is not allowed for any reason during the Prohibited Burning Period. This includes open cooking, campfires, or the burning of rubbish and garden refuse. Penalties will apply.

Is a Prohibited Burning Period the same as a Total Fire Ban?

No.

A Total Fire Ban can be declared during a Prohibited Burning Period. When both are in effect, you must comply with all restrictions applicable.

Plant and Machinery

» Can I operate my tractor during the Prohibited Burning Period?

Machinery operations may be permitted, provided all applicable fire safety requirements are met.

» Do I need a fire extinguisher on my machinery during the Prohibited Burning Period?

Yes. Plant and machinery, including harvesters, tractors and graders, must carry a serviceable water fire extinguisher with a minimum capacity of 7.5 litres.

Plant and Machinery

» Is a dry powder extinguisher enough during the Prohibited Burning Period?

No. A dry powder extinguisher does not replace the required 7.5-litre water fire extinguisher on plant and machinery equipment.

» Can my machinery be inspected during the Prohibited Burning Period?

Yes. Appointed Bush Fire Control Officers can inspect plant and machinery for compliance. Penalties may apply if requirements are not met.
